INDEX TO VOLUME 45

AAAS Symposium, Dec. 28–29, 1965, Berkeley, California. Materials Science in Medicine, Dentistry, and Pharmacy
  introductory remarks, 1652
ABRAMS, E. J., 105**
Abrasion of dentin by toothbrush and dentifrice, improvement in method for measurement of, 1821††
Abscopal and direct effects on calcium mobilization, alkaline phosphatase levels, and dentin formation following x-irradiation of either the rat incisor or the thyroid-parathyroid region, 1529
Academic freedom and the federal government, 1350
Acid mucopolysaccharides in the oral epithelium, 211††
Acid production and enamel decalcifying effects of different salivas, differences in the, 1565††
Acid production of surface aggregates of streptococci and lactobacilli, effect of sodium fluoride on the rate of, 915
Acids, radioactive amino, incorporation of, into oral tissue proteins, 812
Acidulated fluoride with powdered enamel, X-ray diffraction study of the reaction of, 1144
ADAMS, J. W., 289**, 290**, 293**
Address by the Minister of Health, 744
Adhesive in dentistry, sealing properties of methyl 2-cyanoacrylate as an, 376
Adhesive restorative dental materials, advancements in, 1662
ADKINS, B. L., 1205
ADUSS, H., 274**
ADY, A. B., 921
Aerobic gram positive filamentous rods, isolation of, from diseased gingivae, 1159
Aerosol decay and dispersion, 52
Age factor in secondary dentin formation, 778
ALBRIGHT, J. T., 164**, 254**
Alcohol in combination with DMBA, local effect of, on hamster cheek pouch, 1788
ALEO, J. J., 261**
ALEXANDER, W. D., 1458
Alginate impression compounds, role of ingredients in, 1120
Alkaline phosphatase
  activity in developing molars of vitamin-D–deficient rats. II. Normal calcium-phosphorus ratio diet, 1816††
  levels, calcium mobilization, and dentin formation following x-irradiation of either the rat incisor or the thyroid-parathyroid region, abscopal and direct effects on, 1529
ALLAN, F., 100**
ALLAN, F. C., 1516
Allied teaching facilities, problems created by research in, 1331
ALLISON, B. D., 365**
ALLISON, H., 819
Alloplasty, titanium metal in, 1221††
Alloys
  cast gold, grain size in, 964
  dental gold casting, effect of solidification time on the microstructure and physical properties of, 921
  gold cast, specific gravity determination on, some factors influencing, 337
  high-fusing gold, evolution of gases from, 1154
  high-fusing gold, hardening of, 392
Alveolar nerve, growth of rats' lower incisor teeth after unilateral section of, 1078
Amalgam
  calcium fluoride in, for caries prevention, 94
  set and added, the junction between, 408††
Amalgam and various liners, thermal diffusion through, 1184
Amalgams, experimental dental, biological reactions to, 99
AMDUR, B. H., 67**
Amino acid mixture, influence of casein replacement by, on experimental dental caries in rats and on the periodontal syndrome in rice rats, 1810
Amino acids, radioactive, incorporation of, into oral tissue proteins, 812
Analysis
  biometrical, of two-dimensional crowns, technic for detailed, 977††
  of the organic portion of dental calculus, 128
  probit, and an electronic computer, computation of the median age of eruption of permanent teeth using, 1024
ANDERSON, A. A., 174**
ANDERSON, D. L., 417**
ANDERSON, J. R., JR., 379
ANDRIUS, O. K., 1224††
Anemia, Cooley's, microradiographic study of odontologic tissues in, 281
Anesthetic agent for the rat, 4-hydroxybutyrate as an, 412††
ANGELICI, D. R., 219**
ANGUIZOLA, C., 975††
ANNEROTH, G., 229
ANTALOVSKÁ, Z., 1430
Antibiotic, tetracycline, laws of, deposition in rat incisor, 1430
Antibody formation in primates following introduction of antigens into the root canal, 1111
Anticariogenic effect
  in the rat, of cereals fortified with a soluble phosphate, 856
  of a sodium monofluorophosphate solution in children after 21 months of use, 286
Antigens
  introduction of, into the root canal, antibody formation in primates following, 1111
  salivary, 644
Anti-lactobacillus factor, failure to demonstrate the, with streptomycin-resistant lactobacilli, 1227††
APOSTOLOPOULOS, A. X., 1093
APPLEBAUM, E., 778
APPLETON, J. H., 375**, 376**
ARAICHE, M., 129**
ARAN, A. P., 59**
ARCHER, W. H., 236
Area-volume relationship in interproximal cavities, radiographic study of the, 939

** IADR abstracts appear in separate volume; abstract number only is indicated.

†† Research annotations.

ARIAS, N. H., 1078
ARMSTRONG, W. D., 114**, 212**, 216**
ARNOLD, F. A., JR., 1263
Articular tissue, cellular remodeling in, 480
Articulators, protrusive movement in. II. Its practical importance, 751
Ascorbic acid
  depletion in the guinea pig, a serial study of, 1232††
  staining of scorbutic guinea pig incisors, 762
Ascorbic acid-deficient guinea pigs, oxytalan fibers in the periodontium of, 311
ASGAR, K., 96**, 100**, 1516
ASH, M. M., 88**
ATHERTON, J. D., 233**
ATTA, A. E., 91**
Attrition and eruption rates of the rat lower incisor, 1571††
Audio-analgesia, the effect of, on pain threshold and pain tolerance, 1608
AUTIAN, J., 1652, 1668
Autogenous epithelial implants, production of macroscopic cysts by, 1242††
Autogenous epithelial transplantation, an investigation concerning inducibility of lymphoepithelial cysts in hamsters by, 1029
AVERILL, H. M., 248**
AVERILL, J. E., 248**
AVERY, J. K., 401**, 440
AYERS, H. D., 395**

BACKER DIRKS, O., 410††, 503
Bacteremia, post-extraction, the non-aerobes of, 1191
Bacteria indigenous to the oral cavity of man, lysozyme insensitivity of, 877
Bacterial culture medium, human tooth structure as a, 976††
BADER, H. I., 477**
BAER, P. N., 152**, 390**, 406††

dental, and nutrition in Lebanon, 957
dental, in the rat, effect of dietary protein and fat on, 1564††
dental, and salivary glands in female rats, effect of steroid hormones on, 1236††
dental, and stress, relationship of: concentrations in teeth as revealed by photoelastic tests, 1706
dental, in the Syrian hamster, pre- and post-eruptive effect of sodium fluoride on, 1149
experimental, influences of dentinal fluids on, 1493
experimental dental, influence of casein replacement by amino acid mixture on, in rats and on the periodontal syndrome in rice rats, 1810
incipient enamel, a quantitative microradiographic study of, 1477
of rat molars, influence of a barley product on the eruption and, 945
softening of dentin in, 1562††
Caries diagnoses, dental, errors, reversals, and questionable, based on a longitudinal study in children, 323
Caries experience
dental, human blood types and, 1817††

dental, in institutionalized mongoloid and nonmongoloid children in North Carolina and Oregon, 66
Caries incidence
dental, of caries-susceptible rats, effect of passive immunization on the, 993
dental, in North and South Dakota Indian school children during 30 years, 359
eating pattern, and masticatory performance in Osborne-Mendel strain rats, effect of early thymectomy on, 974††
in teeth with tetracycline incorporation, 1827††
Caries prevention, calcium fluoride in amalgam for, 94
Caries process, an analysis of, by finite absorbing Markov chains, 998
Caries-active and caries-resistant naval recruits, oral glucose clearance time in, 409††
Caries-like lesions in rat calculus, 1569††
Caries-resistant, and caries-active naval recruits, oral glucose clearance time in, 409††
Caries-susceptible rats, effect of passive immunization on the dental caries incidence of, 993
Cariogenicity of commercial sweets in rats, effects of phosphate on the metabolism of glucose and on the, 410††
Carious dentin, relationship between hardness, discoloration, and microbial invasion in, 1033
Carious lesion, early, in primary teeth, the histology of, with special reference to a "prismless" outer layer of primary enamel, 5
Carious lesions
active and arrested, of dentin, physicochemical characteristics of, 16
of dentin, physicochemical characteristics of active and arrested, 16
production of, in vitro, effect of the diffusion of microbial growth factors through tooth substance on, 830
Carious process, pathologic changes in the innervation of the dental pulp during, 62
